DUMPED IN THE SNOW.

James Hayden invited a party of friends to enjoy the bracing atmosphere of yesterday by taking a sleighride about the city. All went well with the party until the corner of South and Genesee streets was reached. In turning the corner the runner of the sleigh caught in the rail of the street railway track, overturning the sleigh and dumping the four occupants of the sleigh out in the snow. The horses started to run but Mr. Hayden clung manfully to the reins and succeeded in stopping the animals before they could get under headway. The sleigh was righted and the party proceeded with the ride. No damage was done, other than the injured feelings of Mr Hayden at the remarks made by the crowd which quickly gathered.

THE DAY'S DEATH RECORD.

James H. Hoskins, the Well Known Business Man, Died Early To-day.

James H. Hoskins, of No. 64 Wall street, died at his home this morning at 6:30 o'clock after an illness extending over a long period.

Mr. Hoskins has long been a prominent and useful citizen, and as a business man his career has been a successful and preeminently an honorable one. His fire insurance agency is one of the oldest in New York State, having been started by him nearly 40 years ago. At one period he operated extensively in real estate and was also engaged in the retail shoe business. He was upright, accurate and generous in his dealings and there are many who have reason to remember his unobtrusive kindness.

Mr. Hoskins was a thirty-second degree Mason, the oldest past master of St. Paul's lodge, a member of Salem Town commandery and of Syracuse consistory. He was one of the founders of Wall Street M. E. church in 1854 and has been continuously a member of its official board of which body he has been much of the time the presiding officer. He was a lay delegate to the General Conference of the M. E. church at Omaha in 1892. In all these relations he leaves a record of faithfulness and zeal.

Mr. Hoskins was a son of Perle and Tabitha Hoskins and was born in the town of Clay, Onondaga county, September 8, 1830. He came to Auburn in 1857. He leaves, surviving him, a wife, two daughters, Mrs. J. D. Simpson, of Auburn, Mrs. Henriette Underhill, of Syracuse, and one son, J. H. Hoskins, of St. Louis, Mo., who arrived here on Saturday last.

Hugh Mc Girr.

Hugh Mc Girr, who has resided in Auburn for nearly 35 years, died last night at his home, 151 Seymour street. He was born in Scotland and when he came to America came to Auburn and settled. He was a son of Robert and Margaret Mc Girr, who also emigrated to this country.

Mr. Mc Girr was a machinist by trade, but for a few years past has been unable to follow his trade. For many years his sweet tenor voice gave pleasure to various organizations, his singing of Scotch ballads and other musical numbers being always looked forward to with pleasure.

Mr. McGirr was the father of a large family of children who with Mrs. McGirr will receive the sympathy of a large circle of friends. Besides his wife he is survived by six daughters, Mrs. W. C. Firth, Mrs. F. B. Reed, Mrs. A. G. Gilbert, Mrs. G. W. Severson, Mrs. W. H. Beck, Miss Clara E. McGirr, all of whom reside in Auburn; four sons, Robert Gascoyne, of New York, Hugh L. Gascoyne, Frank Phillip and Clarence Thompson McGirr, of Auburn. Two brothers also survive, Thompson, of Texas, and Thomas, of Elizabethport, N. J.

The funeral will be private at the convenience of the family on Wednesday next with burial at Fort Hill.

John Helfer, a well known resident of the First ward, died last night at his home, No. 56½ Bradford street, after an illness of five days with pneumonia. Funeral services will be held at the family home Wednesday afternoon at 2 o'clock. Burial will be at Fort Hill.

Mr. Helfer is survived by a widow and six children, four daughters and two sons. He was sidewalk inspector for several years up to the first of this year, at which time he was not a candidate for re-election.

Two in One House.

Two families reside in the house at 33 Van Anden street. Saturday evening death claimed the one-year-old daughter of Frank and Catherine Barrett. This morning Margaret, youngest child of John and Mary Sullivan, died, aged one month and 12 days. The funeral of the Barrett child was held this afternoon with burial at State street and that of the Sullivan child will be held to-morrow afternoon at 2:30. Burial will also be at State street.

Found Dead in Bed.

Mrs. James Brown, of No. 205 Mechanic street, died suddenly Saturday night, aged about 60 years. She had been in ill health for some days past, suffering from a severe cold, but she was able to attend to her household duties and her ailment caused no serious alarm. When she retired Saturday evening she felt no worse than usual and her death was not discovered until a member of the family went to call her yesterday morning. Her failure to respond caused an investigation which revealed the shocking news. Coroner Smith, of Fleming, was summoned and declared death due to heart disease.

The deceased is survived by her husband, James Brown, the ice dealer, and several children.

SCHOOL STRIKE OVER.

A dispatch from Rome says: "The strike of the High school students has been amicably settled by their agreeing to abide by school authority hereafter, and if they have any grievance to bring it properly before the Board of Education. They have acknowledged that they had no right to strike. After signing a document incorporating these three points they were allowed to return to school to-day."

ART CALENDAR.

Armour & Company's calendar for 1902 is a highly artistic achievement. The idea is unique. It embodies six types of the American girl of to-day as described by six of the foremost American illustrators—William T. Smedley, A. B. Wenzell, Albert Sterner, Howard Chandler Christy, Henry Hutt and A. I. Keler. All save one of the drawings will be in color; all will be full length figures, placed against soft toned backgrounds. The artists chosen for the task were in no instance restricted. They were simply asked to give their ideal type of modern womanhood. All have done so, and the result as set forth in the six original drawings is all that can possibly be desired. The six drawings in various vehicles are essentially catholic, which makes them more suitable for the purpose to which they are to be put. Refinement, intelligence, suppleness, verve and wholesomeness are the dominant traits of American womanhood, and these characteristics are found in varying degrees in all of the six sketches. All of the artists are well known through their various contributions to leading magazines, as well as to important art exhibitions.

Armour & Co., Chicago, will send this beautiful calendar, securely packed, postpaid, to any address on receipt of twenty-five cents in postage.

THE POLISH QUESTION.

Count Von Bulow Says Incidents at Vreschen Are Greatly Exaggerated.

BERLIN, Jan. 13.—The Imperial Chancellor, Count Von Buelow, replied in the lower house of the Diet to day to interpellations relative to the Polish question in Prussia.

Von Buelow prefaced remarks his by saying that the incidents at Vreschen had been greatly exaggerated. What had occurred was the fault of the Polish agitation and not of the Prussian school system. Corporal punishment would hereafter be omitted during religious instructions. No one prevented the Poles from speaking Polish but they must also learn to speak German and participate in the German work of civilization.

CONFIDENCE IN THE MINISTRY.

King Christian Reply to the Petition From the Danish West Indies.

COPENHAGEN, Jan. 13.—A deputation, representing 34,000 signatories to an address, protesting against the sale of the Danish West Indies without the question being previously referred to a Plebiscite, was received in audience by King Christian to-day. His Majesty replied as follows:

"We thank you for the interest you have displayed in this matter, but we are unable, while diplomatic negotiations are pending, to express our views on the question. We beg you will have, as we have ourselves, full confidence that our ministry will know how to safeguard the welfare of the islands and their people."

SERIOUS FIRE IN CHICAGO.

CHICAGO, Jan. 13.—A loss, estimated at nearly $275,000, was caused by fire this morning in the plant of the J. F. Weil branch of the American Malting company at 52d street and the Pan Handle railroad tracks.

The fire started in the elevator, a great structure 100 feet high, covering an area 300 by 200 feet and having a capacity of 300,000 bushels of grain. It was filled with barley almost to its capacity. The building was destroyed and the contents are almost a total loss.

Adjoining the elevator was a pickle factory on the West, owned by J. Weil. Great efforts were made to protect this plant, but it was somewhat damaged. Several Pan Handle freight cars were also burned.

SAVED MY BOY.

A Whirlwind Strikes Auburn, N. Y.

The Skaneateles Free Press contains the following: Never before has there been such a whirlwind result for medicines as has overtaken the remedies made by Chemist Hamilton, of Auburn, N. Y.

It was his idea that a special medicine should be made for each special disease for each person and that it is unreasonable for any one patent medicine to be expected to cure every ailment in every person. He is making about ninety distinct remedies for as many distinct diseases. Every one is made to cure regardless of cost. None are made that may be sold at a cut price. The result is that every person cured tells his ailing friends: "You go to Chemist Hamilton; his remedies cured me, they will you." The rush of people to him is something marvelous. Those who have been thoroughly discouraged, believing themselves incurable, those who have doctored for years, and were unrelieved, have either gone to him or written to him, and his medicines have permanently cured them.

People twenty and thirty miles from Auburn visit him, tell him all their ailments, receive his special medicine for their particular case and are cured. He is being besieged night and day by the sick with "Save my boy." "Save my mother." "Save my husband."

People insist upon having Hamilton's own special medicines as they have discovered that his remedies are made solely to cure and not to sell cheap; they have discovered that it is the contents of the bottle and not the reputation of the wrapper that cures.

PROBABLY KIDNAPED.

Child Member of the Kline Family of Acrobats Disappears in St. Louis.

ST. LOUIS, Mo., Jan. 13.—Lottie Richards, 11 years old, known in theatrical circles as a member of the Kline family of acrobats, who temporarily, are living in this city, disappeared Friday at noon. The child who is the second member of her family to disappear within the last six months was sent to a neighboring grocery to buy articles for the midday meal and failed to return. The little girl's mother, Mrs. Laura Richards, says that she believes her daughter has been kidnaped by some person who knows the child's ability and desires to make the little girl's theatrical engagements a source of profit.

While living on North Tenth street, about six months ago Bertie Richards, 10 years of age and a half brother of Lottie, disappeared under circumstances almost identical with those surrounding the disappearance of his half sister, and no tidings of him have ever been received.

THE P. OF L. F.

Report of Grand Secretary Arnold Shows a Remarkable Increase in Number.

PEORIA, Ills., Jan. 13.—Frank W. Arnold, grand secretary and treasurer of the Brotherhood of Locomotive Firemen, has just completed his report for the last year, which makes a remarkable showing in reference to the order.

According to the figures, the firemen are the strongest in proportion to the number of men employed in the United States and Canada, of any of the railroad organizations. The firemen today have a total membership of 40,720 as against fewer than 50,000 locomotive firemen in the United States and Canada. This is a doubling of the membership since 1894, when the order moved to Peoria, at which time it had fewer than 21,000 members. The gain for the last year was 3,119 and the insurance in force is $55,628,500.

HELD FOR ASSAULT.

LYNCHBURG, Va., Jan. 13.—Joe Higginbotham, the negro janitor of the Floyd school building has been arrested on suspicion of being the person who criminally assaulted and attempted to murder Mrs. Ralph Webber, wife of a cotton mill superintendent. Owing to the intense feeling prevailing an attempt has been made to keep the arrest quiet.

The negro has not yet been brought before Mrs. Webber for identification, as her condition is not such as to warrant subjecting her to the excitement. He answers, however, to the description given by Mrs. Webber of her assailant. Steps have been taken to have the prisoner removed to Roanoke for safe keeping.

STILL IN THE MINE.

But One Body as Yet, Has Been Recovered From the Negaunee Mine Disaster.

MILWAUKEE, Wis., Jan. 13.—A special from Negaunee, Mich., says: Save for the body found the day of the accident, none of the victims of the mine disaster has yet been recovered. This is due to the fact that the mine has since been flooded with water. It has not yet been determined how many men have perished.

It is expected that within a few days, the water will have been pumped from the shaft and mine and the work of taking out the bodies will be speedily accomplished. The operations of the past two days have been confined to efforts to rid the mine of water. Last night an additional pump went into commission.

Man Made Volcanoes.

A man made volcano exists in Belgium, which has been burning continuously for nearly 150 years and emits vast columns of black smoke, rendering the neighboring country barren, baked and utterly unprofitable.

At Bruie, France, is even the most remarkable volcano made by man. Originally it was a mass of coal, millions of tons. One day about a century ago the coal caught fire, and it has never ceased burning. The summit of the smouldering mass has a genuine crater.
