Distress After Eating

Nausea, belching, vomiting, flatulence, fits of nervous headache, pain in the stomach, are all symptoms of dyspepsia, and the longer it is neglected the harder it is to cure it.

Hood's Sarsaparilla and Pills

Radically and permanently cure it—strengthen and tone the stomach and other digestive organs for the natural performance of their functions. Accept no substitute for Hood's. "I had dyspepsia twenty-five years and took different medicines but got no help until I began taking Hood's Sarsaparilla. Have taken four bottles of this medicine and can now eat almost anything, sleep well, have no cramps in my stomach, no burning and no distress." Mrs. WILLIAM G. BANNEY, 15 Olney St., Providence, R. I. Hood's Sarsaparilla promises to cure and keep the promise.

A GREAT BIG SUCCESS.

The first of a series of entertainments for the improvement fund of the Sunday school of the First M. E. church was given last night at the Sunday school room to a crowded house. The down stairs portion of the house would have held a few more but up stairs all the seats were taken and many were standing. The guessing on the part of the audience, as to the characters taking part, added a new and unusual feature. It was a difficult task in some of the numbers. A vein of innocent fun ran through the continuous programme and during the pantomime entitled "Where Shall We Put Them?", the audience was in a constant laughter for 25 minutes. Every participant in the entire programme seemed to rise to the emergency and there was no poor part in the programme. Lessonmen as those who filled in their programmes passed them in at the entertainment, it will not be necessary to not only add the programme but the participants, all of which are given below.

At the last entertainment of the course, the names of all who have guessed correctly, will have their admission money returned to them. The disguises of the characters were as good as perfect and much credit is due to Richard D. Hudson for his assistance to the committee in this particular work. The committee feel very grateful to the membership of the church and friends for the liberal patronage of the first entertainment and trust that the sufficient goods to merit further attendance. TEACHER HAD HEMORRHAGES.
Members of the High school and all friends of Robert P. Sibley, will be pained to learn of his very serious illness at his residence in Fulton street. Late Wednesday night he suddenly had a hemorrhage of the lungs. An attempt to move him to the hospital Thursday morning was followed by another hemorrhage, which left him in such a condition that it was thought best not to make any more efforts to move him. He is attended by a trained nurse and it is hoped that he will pull through all right as he was somewhat better this morning in spite of his still critical condition. Mr. Sibley's attack was totally unexpected as he was supposedly perfectly well late Wednesday afternoon.

HOYT'S AGENCY.
The time admits not flower or leaves.
To deck the banquet, fiercely files
The blasts of north and east, and ice
Makes daggers at the sharpened eaves. —Longfellow.

The grandest concert ever given in a church auditorium will be the one given by the Beethoven Choral club on the evening of February 23d, at the Central church, William street, when the grand from Mendelssohn's great masterpiece, "Elijah," will be sung by a selected chorus of 75 voices under the leadership of Prof. W. J. Duosek, assisted by eminent soloists.

The price of the tickets has been fixed at the lowest possible sum of 50 cents for reserved seats, to be obtained on members of the club or at Wegman's store after Tuesday next.

LITERARY NOT.
Mr. M. L. Severy is to publish early in the Spring a "detective" story of unusual complexity and interest, entitled "Took Darrow Evidence."
It is, perhaps, the most brilliant detective story written by an American in recent years. At the time John Darrow was murdered there were present with him several people in the room. The doors were all locked, and each of the witnesses of the tragedy testified on oath that they saw no murderer, heard no cry, and knew no motive.

Seeming, such a narrative is on the face of it absurd. The author's actual unravelling of the motives of the murderer, the murderer's identity, and the murderer's weapon. Incidentally, it may be added that the weapon with which John Darrow was killed is one that has never been made use of in a novel before, though it offers to some writers a decided alternative to all other weapons as a means of murder.
