Terms \$5 Per Year. 50 Cents a Month.

Empire Telephone No. 74 Automatic 773

Entered as the P. O. at Auburn as second class matter, hence entitled to second rate postage.

The BULLETIN is a member of the Associated Press and receives the full afternoon service of the organization over its leased wires up to the hour of going to press.

THE CO-OPERATION of Warren M. Brickerhoff and other prominent business men in the effort he has been making to improve the postal service will no doubt be welcomed by Postmaster Clark.

The retail grocers of this city have decided in the interest of public health, to discontinue, after April 1, handling of the cheap, inferior grades of package coffees now on the market.

ANOTHER TRUST EXAMPLE.

Mr. Guenther, United States consul general at Frankfurt, sends to the State department at Washington a brief account of how a German Trust operates under the protection of a tariff.

There is not much openly expressed interest in the tariff at the present time; other matters have occupied public attention; but the Dingley tariff is still in operation, and Trusts are profiting by it, much as German Trusts profit by a German tariff.

In commenting upon the relation of Trusts to tariffs, with special reference to the wire nail industry, the Springfield Republican recently said: "Both Trusts, in fact, appear to be charging the home market exactly what their respective tariff protection will permit them to charge, and out of this charge the German Trust makes a profit so large as to cover a heavy loss on the export trade and yield a net profit on the whole production."

to speak of, and the situation becomes the same here as in Germany—that is, the American consumers of nails are 'made to pay excessive prices for nails in order to enable the Trust to sell its surplus to foreign countries at greatly reduced figures,' to quote from Mr. Guenther's report.

IN THE INTEREST OF HEALTH.

An Important Decision Reached by the Retail Grocers of Auburn. The retail grocers of this city have decided in the interest of public health, to discontinue, after April 1, handling of the cheap, inferior grades of package coffees now on the market.

The local dealers should be encouraged in the stand they have taken against adulterated food products.

SKANEATELES, March 30.—Mrs. Elsie Burnett, wife of Charles N. Cole, of the firm of Cole & Mesinger, of this place, died at her home on the corner of Jordan and Elizabeth streets, at 1 o'clock yesterday afternoon after an illness of several weeks.

A PASTOR CALLED.

MARY CULLEN AGAIN.

Mary Cullen, an old time offender, was arrested early last evening by Officer Atwater, who charged her with being drunk and loitering in the hallway at No. 7 South street.

ROUGH SPOTS.

Good Food Smooths Them Over. "There is probably nothing in the world that produces as much happiness as the peculiar feeling that comes over the mind when well fed with nourishing food that particularly rebuilds the brain, and makes everything on earth have a rosy tint.

So writes a man who was built up from a fractured invalid to a fine condition of health by changing his diet and using Grape-Nuts Food.

"There is no sense of enjoyment equal to that of being well physically and mentally. I can hardly realize that such a transformation has been made. From being ill tempered and disagreeable I have advanced to something like enjoyment of the society that I had grown to avoid.

The writing done while he was in a nervous, ill fed condition is shown on an old time check and reports a series of sicknesses. His signature was made in lines that consist of minute waves or wiggles, showing the desperately weak condition, while the signature to the letter is remarkable for its clear penmanship.

THAT PRISON IMBROGLIO.

Some Statements in Criticism of Chaplain Herrick's Official Conduct. TO THE EDITOR:

In the matter of Chaplain Herrick against the officers of Auburn prison, it will be noticed that the chaplain only has been heard. His statements to the Advertiser are in keeping with his reputation among the officers for truthfulness. The chaplain's troubles arise from his well known propensity for attending to other people's business.

As to his being 'intimidated for telling the truth,' it must cause those who know him best to smile, especially at the word 'intimidated.' If the chaplain wants to be vindicated, let him go before a court or the superintendent of prisons, call up the entire force so that the people will hear both sides of the question.

The feeling of resentment against the chaplain is intensified by the fact that the chaplain by his making the murder of Benedict a topic of conversation wherever he went, virtually had himself subpoenaed by the defense.

The chaplain drew up the resolutions reciting the good qualities of the dead guard as an officer and a citizen, yet he goes on the witness stand and swears to his being a bad character.

TWO YEARS OLD.

And the Big Store is a Veritable Bower of Beauty To-day.

After a period of two years, during which time its trade has enjoyed a steady growth, the firm of Foster, Ross & Bauous to-day enjoyed its second anniversary opening. The preparation for this event has been a matter of great care and when the doors of the Big Store were thrown open to the public this morning people who entered must have been impressed with the splendid appearance and arrangement of things.

Passing down through the store one is impressed with the sight. Over one of the huge cross sections there is an arrangement which is particularly attractive. The display shows two white swags draped in tandem by a cherub. Over the ends fountain are giant arches of trellis work woven with smilax and violets, and this sort of decoration has been followed out generally through the entire interior.
