Cayuga County Savings Bank. See ad.
Owego Starch Factory. See the ad.
Strawberry Festival at Universalist Church. See ad.
Dress Goods, &c. See W. H. Reilly's new ads.
First Presbyterian Church entertainment. See ad.
Second evening of the San Great Festival and Concert to-night.

The tally-ho coach makes a trip to Weedsport and Port Byron to-morrow, if the weather be fair.
The late General Shields was proud of his country and gloried in being an Irishman.
Moravia proposes to stop the sale of beer, and perhaps the flow of water.
Part of "A" Co., Moravia, were at the rifle range to-day, qualifying as marksmen. The balance come to-morrow.
Sheriff Reed yesterday drove to Marcellus, Camillus and Jordan, in pursuit of a clue to Joe Daley, the jail breaker. He returned at 4 P. M. unsuccessful.
Wm. Jackson, employed by Ben F. Webster, was painfully injured at the N. Y. Central depot to-day while handling barbed fence wire. He received a cut across the wrist which severed the veins and caused a large loss of blood.

Deane Trowbridge, a well known horse-thief and a graduate of Auburn prison, passed himself off on an Oswego family as their long lost son and brother. He was exposed, stole a horse and made off, and is now on the road.
The News and Bulletin has invented a new word. It reads an account of a man being squeezed by the bumpers of a freight train. "Another humped brakeman." Rochester Union.
Headings are nothing if not alliterative. The new word is at the service of our contemporaries.
An Ithaca firm have completed a beautiful fishing rod to be offered as a prize in the coming State Sportsmen's Convention. Its value is \$75. It consists really of two rods, that is, two butts, two middle pieces and two tips. Four rods, however, can be made out of it by various combinations. It is said to be one of the most elegant rods ever offered.

FIREMEN'S DRILL.—The firemen's drill last evening was another instance of prompt assembly and quick work. The alarm was struck for District No. 3, Water Works Co.'s office, before 7 o'clock, earlier than the boys expected it; but they were all on hand. The two-inch stream from the Holly pipe with three hydrants attached, was watched with interest by many of the old veterans of the former department, as well as a crowd of other people.
HILEY-JOHNSON.—The Argus says that James H. Riley is in daily practice on Saratoga Lake for his approaching match with Frenchy Johnson. He is cultivating a "git-thar" stroke, which, united with a determination to win, ought to enable him to exhibit the stern of his boat to the colored Bostonian in the waters of Oswego. The winning of the match will justify the faith of his friends in his prowess much more than proving a "oise second," and then conjuring excuses for not appearing a "good first" in the finish line.

A BRUTAL ASSAULT.—The Binghamton Leader of yesterday says: "Last Sunday evening, as Mrs. W. J. Sullivan, wife of keeper Sullivan of Auburn, and Mrs. J. J. McDonald, her sister, were passing through Maiden Lane, near Dr. Maybury's residence, they were met by Jack Dunn, a cigar maker, who attempted to pass between them, and as they did not give way for him, he struck Mrs. Sullivan in the face, knocking her down, and then kicked her. Mrs. Sullivan is an invalid, having just returned from a New York hospital. The miscreant Jack Dunn has left town. He is a miserable cowardly ruffian, a drunken brute, and it is to be hoped he will be brought back to the city, and sent to State Prison for a term of years, for the good of society."

GAUZE UNDERWEAR.—For Ladies', Misses' and Children, Men and Boys' wear, in all sizes, from 25 cts up. FORD & RICE.
HUNT & OSBORN. Givreen, the best article for Cleaning Kid Gloves in the market.
Gave notice that he would meet and introduce himself to the members of the Board of Education.

Go to the Lawn Festival for supper to-night, any time after 5 o'clock. June 4th.
The Regents' examination will be held at the High School Thursday and Friday, June 5th and 6th. Only qualified scholars from the common schools of the vicinity will be admitted to the examination.
Notwithstanding the weather the Lawn Festival of the San Great Society was a success last evening. The second night will be much better than last.
The Teachers' Association for the First District of Cayuga county will be held at Meridian on Saturday, June 14th. All the teachers of the Association district are expected to be present. By order Committee. W. KELLEY, Sec'y.

DRESS GOODS. Dress Goods. Curtain Laces. Shetland Shawls. A fine variety at very low prices. New York Store at REILLY'S.
Wednesday evening next the primary department of the First Presbyterian church Sunday School will give an entertainment consisting of music and class exercises, in connection with a social gathering and strawberry festival by the Young Ladies' Missionary Society of the church. Every effort has been made to make the affair as pleasant and attractive as possible. The proceeds will be devoted to the use of the little ones. Give the children a benefit. Admission 10 cents.

BOARD OF EDUCATION.

Present—President Perry, Secretary Snow, Commissioners Barnes, Clapp, Clark, Davis, Hamblin, Lewis, Tuttle.
Absent—Com'r Moses.
The Secretary read the minutes of last meeting, which were approved.
On motion, the members proceeded to draw for seats, after which the regular order of business was resumed.
Mr. Clapp, from the Finance Committee, presented the monthly schedule of bills, which were passed as follows:

Table with columns for item, amount, and total. Includes items like Pay roll of teachers and superintendant, and various school expenses.

The president announced the following STANDING COMMITTEES: Finance—Messrs. Moses, Clark, Lewis, School—Messrs. Davis, Tuttle, Clapp, Teachers—Messrs. Tuttle, Moses, Davis, High School—Messrs. Lewis, Hamblin, Clapp, Books—Messrs. Clapp, Barnes, Hamblin, Grievances—Messrs. Clark, Lewis, Barnes, Supplies—Messrs. Hamblin, Davis, Clark, Building and Repairs—Messrs. Barnes, Moses, Tuttle.

The president presented a communication from Jno. S. Clary, on behalf of residents on Bostwick-st., for privilege of excavating through grounds of Genesee-st. school for a sewer.
On motion of Mr. Davis, referred to Building Committee, to report at next meeting.
The Secretary reported audits to date at \$28,800.29.
Also report of National Exchange Bank, showing balance to credit of School fund to date, \$16,095.05.
Also report of City Treasurer, showing collection during the month, of \$286.55, which amount was deposited to credit of school fund.

Mr. Tuttle said as he had voted at the last meeting to table the resolution calling for changes in stairways at Grover-st. and North-st. schools, he now moved that it be taken up and passed.
Mr. Davis said that while he should vote in the affirmative, it was a motion in which Mr. Moses was so much interested that he should in courtesy to Mr. Moses, who was absent, move that it lie on the table until the next meeting when he should be present.
The President suggested that the estimates for budgets would be required before the next regular meeting, and would necessitate a special session.

Mr. Tuttle said he would certainly like to leave it until Mr. Moses was present.
Mr. Davis's motion prevailed.
The Secretary reported that Mayor Osborne had made inquiries as to how good the estimates of the Board would be prepared.
The President suggested that the Board determine what day they would adjourn to for special session.
Mr. Hamblin suggested Friday, next at 7:30 P. M.
Mr. Barnes said the Building Committee had thought it necessary to put an additional story on Division-st. Primary schoolhouse, also to heat Genesee-st. school by steam.

Mr. Tuttle said the addition was indispensable. The school had not been open 24 hours, this term, before it was found to be completely overrun.
Mr. Barnes moved that the Building Committee include in their estimate the expense of an additional story on Division-st. Primary. Adopted.
Mr. Barnes moved to include also expense of heating Genesee-st. school by steam.
Mr. Lewis suggested that Mr. J. H. Osborne, of the Steam Heating Co., be heard relative to proposals by that corporation for heating the above building. Mr. Osborne gave the figures at \$300 for heating for the year, and \$740.35 for fittings.
Mr. Tuttle moved as an amendment to the motion of Mr. Barnes, to include steam for Fulton-st. school.

Mr. Barnes accepted the amendment, and the motion was adopted.
Mr. Lewis moved that the High School Committee be authorized to engage a band for Commencement. Adopted.
No transfer of a pupil from one sub-district to another as provided in Sec. 5 Art. 6 of the Rules and Regulations, shall, for a longer time than to the end of the term during which such transfer was made.
No pupil whose parents or guardians are residents of the city shall be admitted at the commencement of any term to any school save the one in the sub-district where said parents or guardians reside, and no transfer shall be made except by an order in writing signed by the Chairman of the Committee on Schools and by the Supt.
Laid over under the rule.
On motion of Mr. Davis, the detail of Commencement exercises was referred to Committee on High School with power.

Mr. Lewis moved that the Committee on Supplies advertise for proposals for coal. Adopted.
Mr. Hamblin moved to adjourn to Friday 6th inst., 8:30 P. M. Adopted.
NEW TIME CARD.—On Monday next, June 7, a new time card takes effect on the Southern Central. Two new trains will be put on between Auburn and Owego—the Day Express No. 7, leaving Auburn at 11:20 A. M. and arriving at Owego 2:05 P. M.; the Day Express No. 10, leaving Owego 7:30 A. M. and arriving at Auburn 10:55 A. M.
Other changes will be noted when the time is published. Close connections are to be made on all trains.

LAWN FESTIVAL.—This evening's lawn festival in front of the Central Church bids fair to be a pleasant affair. The San Great Society have made every effort for its success. The 49th Orchestra will give the new music to be used at Cornell Commencement, and the chorus of 40 children's voices will be added. The Gipsy Queen will tell fortunes, and the ladies will offer refreshments. The scene is attractive by day, and under the moonlight and illumination this evening must prove charming. The attendance last night was surprising. To-night it should be immense.
COURTESY AT SILVER LAKE.
A MATCH IN AID OF ABNER TRIPP'S WIDOW.
It is reported that Courtney will row a handicap scull race on Silver Lake late in July, with the winner of the Riley-Johnson match to come off July 4th on Oswego Lake. Silver Lake is near Perry, Wyoming county. The match is to be for \$500, in aid of the widow of Abner Tripp, late an employe in Courtney Bros' shop, a nephew of Dr. G. W. Tripp, of this city. The buzz saw accident by which Mr. Tripp lost his life, was reported in our columns some two weeks since. The Rochester Express, in speaking of the handicap match says the people of Perry are doing all they can to add to the success of the enterprise. It may be remarked by the way that Courtney has bought him a new scull thirty feet long by eleven and a half inches wide. He has disposed of all his old sculls. He will arrange for some amateur matches at Perry for small prizes, to be rowed at the same time as his match. The oarsmen will be selected from among his pupils at Union Springs. He has a nephew who, for a mile, can row as rapidly as himself. It is very probable that Courtney will, a year from now, row Hasolan again.

DEATH OF JAMES O. WOODRUFF.

THE YOUNG PROJECTOR OF A MAMMOTH EXPEDITION IN AID OF SCIENCE.
The sad intelligence comes over the wires to-day, that James O. Woodruff, Esq., of this city, projector of the great scientific expedition around the world, died in New York at 8 o'clock this morning. He was taken violently ill with brain fever, some time since, and on Saturday his father Mr. Harmon Woodruff, went to New York to be with him, at his boarding place on Tenth-st.
James Orton Woodruff was born in Auburn in 1840. He served in the war for the Union, and afterward sought recuperation at the South. While in Florida he conceived the idea of a floating college, which so breathed his after life. He had suffered greatly from ill health, and recently had become deaf, through some incipient disorder of the brain which finally resulted in his fatal illness. For some years past he had been a resident of Indianapolis, Ind., where his public spirit and enterprise are marked by works that live after him.
The remains will be brought here to-morrow by the 6:10 A. M. train for interment on Friday.

A fitting recognition of Mr. Woodruff's determined purpose is given in the following extract from a Washington letter to the N. Y. Tribune in February last:
No one who witnessed the indomitable energy displayed by Mr. James O. Woodruff here in the winter of 1877-8, in securing permission to purchase a foreign-registered vessel, can lose interest in the Woodruff Scientific Expedition "Around the World," or fail to sympathize in its assured promise of a brilliant success. Scarcely ever in the varied scenes of life at the Capital is presented a more novel sight than was witnessed when this quiet, unobtrusive young man steadily fought on-closed law, precedent and jealous monopolists.
Blany an old legislator smiled half in pity at the young enthusiast. Men of science and those to whom the development of all educational power is a matter of first moment, with a few personal friends gave the support of sympathy. Meantime the moneyed agents of certain so-called "industries," i. e., ship building monopolists, for whose protection such laws were enacted, grew insolent. Single-handed and right manfully Mr. Woodruff, embodying the very genius of perseverance, worked on until the winter passed. Suddenly another applicant, representing more potent—a newspaper—and that newspaper, the New York Herald, petitioned for a permit to buy a foreign registered vessel for a purpose not so novel as that indicated by Mr. Woodruff, but of accredited importance, which prayer—presto—was granted.

The stepping stones had been firmly laid by the unsaid energy of Mr. Woodruff, and the man of money got all he asked—vessel and the desired complement of naval officers to conduct and give a national character to his expedition. In a few days later our wise legislators, after many hems and haws, granted Mr. Woodruff a permit to purchase a foreign-built vessel, and also the naval officers so important to place such a national enterprise (though the work of one man, conceived and achieved by him) upon a footing of proper dignity before the world.
I confess that this successful termination of what seemed such an unequal conflict places Mr. Woodruff in rather a heroic light. The commercial world is at least indebted to him as the one who entered the wedge.

For some years past he had been a resident of Indianapolis, Ind., where his public spirit and enterprise are marked by works that live after him.
The remains will be brought here to-morrow by the 6:10 A. M. train for interment on Friday.

POLICE COURT.

Two young men arrested by Officers McDonough and Gray, on charge of violating the ordinance, in standing on the corner of State and Pine streets on Monday evening were tried before City Judge Wood in last evening, and discharged.
It is understood that the parties desirous of bringing action against the officer for false arrest. If so, the authority which empowers the officers to make such arrests will undoubtedly sustain them in doing what they are instructed to do. If the ordinance cannot be enforced, and such a manner as to meet the public approval, it might better be repealed.
Paulden Wade, of Syracuse, was brought in by officer Parker on the 4:10 P. M. train yesterday, to answer to a charge of larceny from a person, preferred by Alexander Robinson. His examination is postponed.
Edward Sayles, arrested on peace warrant last evening, is held to bail to answer for threatening to kill his children.
Sayles was secreted in the James barn, and jumped from a window on the second floor, when 10 officers came for him. He sprang his leg by the jump, falling some fifteen feet.
Three cases of intoxication this morning. One sent up for five days, two paid fines of \$3.

When a man calls his wife "women folks," the Kingston Freeman says, you may set it down that she is one too much for him, so that he is obliged to designate her as "p'ral."
Chew Jackson's Best Sweet Navy Tobacco.
